FOREWARD

This publication, the sixteenth annual compilation of **How do you compare?** is intended to assist public library boards in identifying the level of municipal support relative to other communities.

These comparisons should encourage municipalities to investigate the reasons for differences and analyze public library resources, programs and services within the community.

Your suggestions and comments may be sent to:

EXPLANATION

Sept '85 Pop = September 1985 Population. Population data refers to those persons residing in a municipality on a permanent basis. The criteria to determine permanency are those pertaining to the definition of "resident" used in relation to a person as set out in the Municipal Elections Act. The 1985 population totals have been taken from enumeration reports completed by the Ministry of Revenue in the fall of 1985.

1987 Households = "Household" refers either to a 'single family dwelling unit - or a portion of a dwelling which is a domestic establishment - consisting of two or more rooms in which the occupants usually eat, sleep and prepare meals'. Household data was assembled from the returned assessment roll of January 1987.

Tot. Rvn. Own Prpss (,000) = Total Revenue own purposes in thousands. For local and union library boards and contracting municipalities, total revenue is all own purpose revenue from taxation and payments in lieu of taxes collected by the municipality/municipalities for which the library board was established. It does not include revenue collected for upper tier purposes or school board purposes. For county library boards, total revenue is taxation and payments in lieu of taxes for upper tier purposes collected by participating municipalities only. Data was assembled from the 1986 Financial Returns and provided by the Ministry of Municipal Affairs.

Tot. Eqlzd Assessment (,000) = Total Equalized Taxable Assessment in thousands. The total equalized taxable assessment is the total for the municipality/municipalities for which the library board was established. Equalized taxable assessment data was supplied by the Ministry of Municipal Affairs.

ETA per capita = Total Equalized Assessment per capita.

ETA per Households = Total Equalized Assessment per household.

Local Support = The figure for local support for the library board was taken from the Annual Survey of Public Libraries 1985.

Loc. Sup. p.c. = Local Support per capita

Loc. Sup. p. hldhld = Local Support per household.

L.S. as % Tot. Rev. = Local Support as percent of Total Revenue

A Word of Caution - Generally a municipality that shows a high library support as a percentage of total revenue figure may be assumed to put high priority on library service. However, a lower percentage of local tax revenue going to the library does not always mean a municipality is giving less support to the library than its neighbouring municipality; the neighbouring municipality may be offering fewer municipal services and have, as a result, a lower tax bill. Similarly, the equalized taxable assessment per capita does not always show the true wealth of a community; the equalized taxable assessment per household should also be consulted. When using the tables to compare one library board with another be sure the two municipalities being compared are offering the same municipal services and are similar types of communities.

INDICES FOR COMPARISON

ETA PER CAPITA	Low	Lower Quartile	Median	Upper Quartile	Maximum	Mean	Standard Deviation
Under 5,000 population	$8,442	$18,857	$23,598	$32,852	$182,032	$33,232	$27,782
5,000-15,000 population	$11,360	$23,852	$28,645	$37,264	$94,965	$31,245	$11,380

Waterloo and Wentworth are regional municipalities. Regional municipalities have a much more comprehensive list of functions than counties and hence collect greater revenues. This accounts for the "library support as a percent of tax revenue" figures for Waterloo and Wentworth being significantly lower than for the other county libraries. Local tax revenue for counties is revenue collected for upper tier purposes only. Equalized Taxable Assessment and Local Tax Revenue are totals for municipalities belonging to the county library only.
